Čeprav je sam študij pomemben za razvoj posameznika, ne smemo pozabiti tudi na dragocene izkušnje in praktična znanja, ki jih pridobimo s pomočjo obšolskih dejavnosti. ESTIEM je mednarodna organizacija, ki dejavnosti, kot so tekmovanja v študiju primera in retoriki, seminarji, spoznavanje tujih kultur in poletna druženja, ponuja na področju celotne Evrope. Poleg tega pa se ESTIEM-ovci udeležujejo tudi mednarodnih konferenc. Vse to pripomore, k širjenju znanja, ki se ga ob študiju ne da pridobiti, zraven pa še pridobitev novih poznanstev in izboljšanje možnosti zaposlitve.

*Although studying is important by itself, we cannot forget about the importance of experience and practical knowledge gained with extracurricular activities. ESTIEM is an international organization, which offers activities like case study and rhetoric competitions, seminars, studying foreign cultures and summer academies in the whole European area. Pokrovitelj Tekmovanja v študiji primera / *Sponsored by:*

Mnogi študenti v času svojega študija pridobijo širši vpogled v področje uporabnega znanja in sodelujejo pri iskanju novih rešitev, ki jih zahtevajo sodobni izzivi domačega in tujega okolja. Letošnje 3. mednarodno tekmovanje v reševanju študije primera je priložnost, ko lahko študenti svoje pridobljeno znanje preizkusijo na praktičnih primerih, kjer bodo svojo ustvarjalnost soočile različne skupine študentov fakultet, tako domačih kot tujih. Koncept študije primera predstavlja metodološko in pedagoško naravnani izziv, katerega cilj je integracija različnih teoretičnih konceptov in situacij iz realnega poslovnega okolja. Iz tega razloga sama metodologija študije primere omogoča udeležencem podroben vpogled v konkreten poslovno naravnani problem proučevane organizacije / podjetja. Skozi raznoliko diskusijo kot metodo aktivnega učenja se spodbuja osvajanje in razvoj potrebnega kritičnega oz. ustvarjalnega razmišljanja, potrebnega na področju managementa. Člani najbolj uspešne skupine bodo s strani pokrovitelja tekmovanja v študiji primera: podjetja Diners Club prejeli praktične nagrade.

## Okrogla miza: Okolje in mladi: kako jih spodbuditi k skrbi za okolje? /SLO/

dvorana / hall: EMERALD II

Pokrovitelj okrogle mize / *Sponsored by:*

**GOODYEAR DUNLOP**  
SAVA TIRES

Goodyear Dunlop Sava Tires bo na povabilo Fakultete za organizacijske vede sodelovala na okrogli mizi, ki bo potekala v sklopu 32. mednarodne konference o razvoju organizacijskih znanosti. Na dogodku bo družba skupaj z ostalimi povabljenimi gosti predstavila projekt Pozor(!)ni za okolje in odprla diskusijo o načinih učinkovitega motiviranja mladih. Predstavniki Goodyear Dunlop Sava Tires in ostalih podjetij, ki bodo sodelovala v razpravi, bodo razpravljali o okoljsko osveščevalnih kampanjah, ki nagovarjajo predvsem mlade, in o težavah, s katerimi se soočajo pri motiviranju slednjih. Ključna sporočila okrogle mize bodo: Slovenija se sooča s številnimi izzivi pri uvajanju dobrih praks ravnanja z odpadki in okoljem nasploh. Skrb za odgovorno ravnanje z okoljem in z odpadki je naloga tako vsakega posameznika kot tudi podjetij. Pomemben vidik reševanja okoljske problematike je tudi osveščanje mladih. Kakšne so ugotovitve anket o odnosu dijakov do okolja, izvedenih v okviru kampanje Pozor(!)ni za okolje? Osveščanje in spodbujanje mladih k večji skrbi za okolje pogosto predstavlja težavo, s katero se pobudniki kampanje soočajo pri oblikovanju aktivnosti projektov. Kako se posamezna podjetja in institucije lotevajo oblikovanja aktivnosti v okoljevarstvenih projektih, ki nagovarjajo mlade?
