High Capacity Digital Societies

Make it happen!

Tuesday, June 21st 2016, Bled, Slovenia

UPSIDE is organizing the project final conference within the 29th Bled eConference 2016 in a one-day track with the title: "High Capacity Digital Societies – Make it happen!" on the 21st of June.

In the morning, two hands-on workshops with current cities challenges will be addressed, by using open innovation approaches. While in the afternoon, the conference will host "external speakers" on topics like "The role of clusters in innovation", besides some very interesting presentations related to project results.

The Conference will take place in the framework of the Bled eConference entitled "Digital Economy" (http://bledconference.org/).
This conference will also include the Final Conference of the Be Wiser project ("Clusters and Cybersecurity - Be Wiser outlines Europe's Cybersecurity Challenges", June 22nd). We highly encourage you to register to the Bled eConference as the attendance of all other conferences will be included in the registration fee.

However, if you would like to participate to Conference Track "High Capacity Digital Societies – Make it happen!" **only**, you can have a 1-day Conference Pass (Fee: 250 €).

Register at projekte@cyberforum.de first 25 places are free of charge!!!!!

Join us and widen your network! Get in contact with researchers, cluster experts and managers, business and public administration representatives.
