

Special issue call for papers from Business Systems Research: Novel Solutions and Novel Approaches in Operational Research

CALL FOR PAPERS

Business Systems Research (BSR) Journal is an **international scientific journal** focused on **improving competitiveness of business and economics** through the **novel operations research** approaches such as **modelling approach, statistical analysis, machine learning**. BSR examines a wide variety of business and economics decisions, processes and activities within the actual business setting, but within the systems and modelling approach framework.

A special issue of the **Business Systems Research Journal** with extended versions of selected papers from **SOR'19 (The 15th International Symposium on Operations Research in Bled, Slovenia)** will be published under the journal's publishing standards. Special issue is **scheduled** for publication in **September 2020** (Vol. 11 No. 2).

The deadline for submission is **31/01/2020**.

PUBLICATION AND INDEXING

Business Systems Research Journal is indexed in INSPEC, Clarivate Analytics' the Emerging Sources Citation Index (ESCI) Web of Science, Scopus, and ERIH+, and number of other indexing services. Journal is ranked in Q3 in the field of Econometrics and finance.

AUTHOR GUIDELINES: <http://www.bsrjournal.org/author-guidelines.html>

If papers have already been presented at the conference, the authors should change the title, the abstract and at least 30% of the paper text, so that the paper can be treated as a completely new paper.

IMPORTANT: Authors from SOR do not pay the Submission fee for the journal.
