**Author Guidelines**

The journal Naše gospodarstvo / Our Economy publishes original scientific articles covering all areas of economics and business. Authors are invited to send original unpublished articles which have not been submitted for publication elsewhere. Authors are completely responsible for the contents of their articles. Only articles receiving a favorable review are published. The authors grant the Journal Owner the exclusive license for commercial use of the article throughout the world, in any form, in any language, for the full term of copyright, effective upon acceptance for publication.

Please write your text in English. The cover page should contain the author's name, academic title or profession, and affiliation.

The first page should consist of the title, an abstract of no more than 250 words, and key words. A structured abstract should comprise the following 4-6 parts: purpose, methodology/approach, findings, research limitations (if applicable), implications (if applicable) and originality/value. Add also at least three appropriate codes of JEL classification that can be found at <https://www.aeaweb.org/econlit/jelCodes.php?view=jel>.

The length of the manuscript should be composed of up to 30.000 characters. Emphasized parts of the text should be in italics, not bold or underlined. The text should be in single column layout. Footnotes should be numbered consecutively and placed at the bottom of the relevant page. Equations should be numbered.

Tables and figures should be in black and white, numbered with a title above and notes and sources below. All tables and figures should be sent also in original files (.xls, .ppt and similar).

References in the text and in the list of references should be arranged according to APA style (<http://www.apastyle.org/learn/tutorials/basics-tutorial.aspx>).

Some elementary guidelines for the APA style

References in the text

Example 1: Another graphic way of determining the stationarity of time series is correlogram of autocorrelation function (Gujarati, 1995).

Example 2: Engle and Granger (1987) present critical values also for other cointegration tests.
